You can put images at any position

As !!!

well text

as

And this is a table on top of an image at x:100 y:100

Calumn	Column 2			Column 3
Let's try an proordered list	or a nested table			Inlines can be styled
item	Col1	Col2	Col3	easily as everywhere else
	1	2	3	
	1	2	3
